

How our Cornerstone POS System Will Save you Time

Reason # 1: Speed Up Check Out and Efficiency

There will be no more questioning of prices, no more calculating mistakes and simple human error will be cut down dramatically. All merchandise will now be stored electronically within the POS system with pricing included. Also the POS system allows for coupons, and promotional marketing to be included so the employee guessing game will be ended.

Reason # 2: Bar Coding Technology Can Save you even More Time

Bar coding technology allows all merchandise to be scanned quickly leaving out the need to enter in codes manually. Bar coding also minimizes human error and will improve control of your inventory.

Reason # 3: Save Time by Controlling your Inventory

Control your inventory by knowing what you have at all times. Since the POS system tracks all merchandise you will know what you have used and what you will need. Also you can easily pin point missing inventory supplies and take control of your inventory once and for all!
