

Grocery ATM

- The presence of an ATM **speeds up customer checkout** with cash in hand!
- Having a ATM system provides your customer access to cash while **limiting the amount of cash back at the register**, thus reducing theft, miscounts, and teller time spent on this task
- Customers can use the ATM as a backup when the POS system is down.
- Our grocery store ATM processing delivers more approved transactions resulting in **more cash dispensed**.
- We provide **real-time money machine status information** with messaging and cash alerts!
- ATMs **build foot traffic, customer loyalty** and **enhance establishment reputation!**
- ATMs **reduce your credit card check cashing fees!**
